

CDC Biofilm Reactor®

The CDC Biofilm Reactor® consists of eight (8) polypropylene coupon holder rods suspended from a UHMW-polyethylene ported lid. Each coupon holder rod can accommodate three (3) 1/2-inch (12.7 mm) diameter coupons, for a total of twenty-four (24) coupons. The lid (with coupon holders and coupons) is mounted in a 1-liter glass vessel with side-arm discharge port. A liquid growth media or biocide is circulated through the vessel while mixing and shear is generated by a magnetic stir bar and vane rotated by a magnetic stir plate.

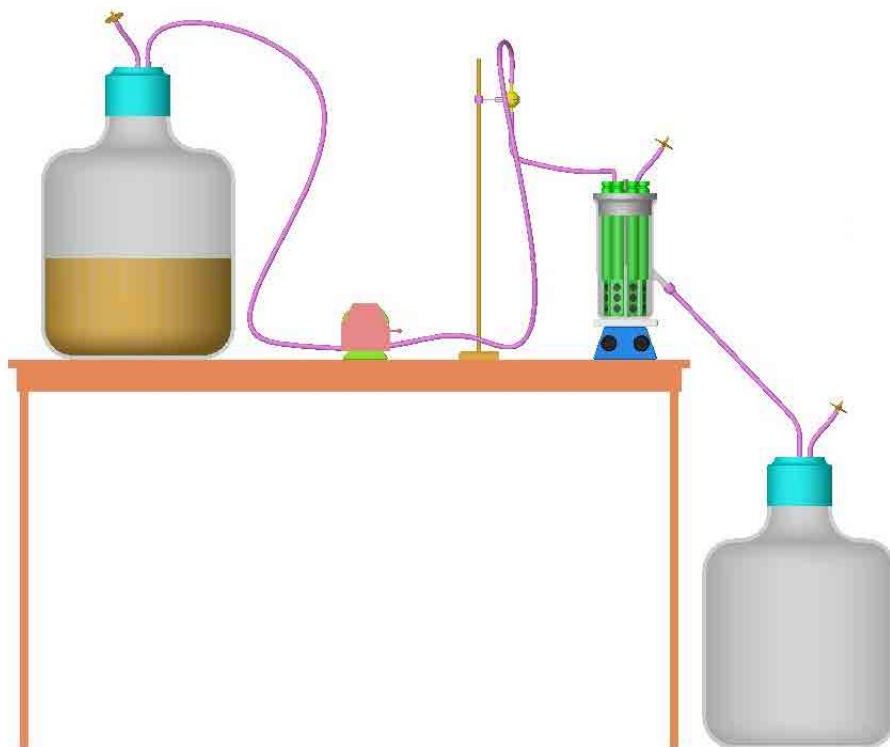

Sampling of the coupons is conducted by aseptically removing individual coupon holder rods with accompanying coupons (3). The coupon holder (or blank) rod is replaced in the lid after sampling to allow the time course experiment to continue. The coupon removed from the reactor vessel is then used for treatment evaluations, scraped or vortexed to collect the biofilm sample for further study, or imaged using microscopy and image analysis.

The CDC Biofilm Reactor® is completely autoclavable and reusable. The total liquid volume is approximately 350 ml. More than forty (40) coupon materials are available, including plastics, metals, and ceramics.

CDC Biofilm Reactor®

Model CBR 90 - 2 CDC Biofilm Reactor w/o stir plate	\$1,010.00
Includes polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 1 CDC Biofilm Reactor System with Standard Stir Plate (115 VAC, CE)	\$1,680.00
Standard Magnetic Stir Plate (110-120 VAC, CE certified) and reactor supports. Includes reactor supports and stir plate (110-120 VAC, CE certified), polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 1 - Int CDC Biofilm Reactor System with Stir Plate (230 VAC, CE)	\$1,730.00
Standard Magnetic Stir Plate (220-240 VAC, CE Certified) and reactor supports. Includes reactor supports and stir plate (220-240 VAC, CE certified), polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 1DH CDC Biofilm Reactor System with Digital Stir/Hot Plate (115 VAC, CE)	\$2,620.00
Digital Stir/Hot Plate with Temperature Control (110-120 VAC, CE certified) and reactor supports. Includes reactor supports and digital stir/hot plate with temperature control (110-120 VAC, CE certified), polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 1DH - Int. CDC Biofilm Reactor System with Digital Stir/Hot Plate (230 VAC, CE)	\$2,750.00
Digital Stir/Hot Plate with Temperature Control (220-240 VAC, CE certified) and reactor supports. Includes reactor supports and digital stir/hot plate with temperature control (220-240 VAC, CE certified), polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.

Anaerobic CDC Biofilm Reactor®

Model CBR 90 - 3 Anaerobic/Sealed CDC Biofilm Reactor w/o stir plate	\$1,450.00
Includes lid with silicone gasket seals for coupon holder rods and lid seal to glass vessel, polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 3SS Anaerobic CDC Biofilm Reactor System with Standard Stir Plate (115 VAC, CE)	\$2,140.00
Standard Magnetic Stir Plate (110-120 VAC, CE certified) and reactor supports. Includes reactor supports and stir plate (110-120 VAC, CE certified), lid with silicone gasket seals for coupon holder rods and lid seal to glass vessel, polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 3SS-Int Anaerobic CDC Biofilm Reactor System with Stir Plate (230 VAC, CE)	\$2,190.00
Standard Magnetic Stir Plate (220-240 VAC, CE certified) and reactor supports. Includes reactor supports and stir plate (220-240 VAC, CE certified), lid with silicone gasket seals for coupon holder rods and lid seal to glass vessel, polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 3DH Anaerobic CDC Biofilm Reactor System with Digital Stir/Hot Plate (115 VAC, CE)	\$3,080.00
Digital Stir/Hot Plate with Temperature Control (110-120 VAC, CE certified) and reactor supports. Includes reactor supports and digital stir/hot plate with temperature control (110-120 VAC, CE certified), lid with silicone gasket seals for coupon holder rods and lid seal to glass vessel, polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.	
Model CBR 90 - 3DH - Int Anaerobic CDC Biofilm Reactor System with Digital Stir/Hot Plate (230 VAC, CE)	\$3,210.00
Digital Stir/Hot Plate with Temperature Control (220-240 VAC, CE certified) and reactor supports. Includes reactor supports and digital stir/hot plate with temperature control (220-240 VAC, CE certified), lid with silicone gasket seals for coupon holder rods and lid seal to glass vessel, polycarbonate coupons (24), side-discharge vessel with ported lid, coupon holder rods (8), blank coupon holder rod, coupon removal tool, stir bar/vane, glass flow breaks (2), coupon manipulation tool, bacterial air vent, operations manual, 6 month limited warranty.
