

MicroWell™ Biofilm Plate Assay

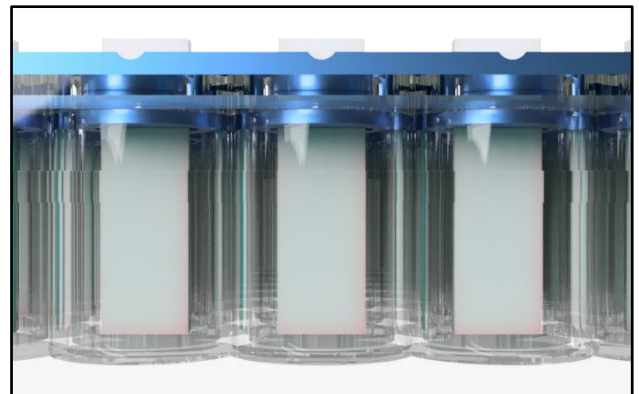

The MicroWell™ Biofilm Plate Assay holds 48 coupons, each measuring 0.25 inches by 0.80 inches, inside the wells. This versatility allows researchers to choose from a wide variety of materials, including custom options upon request, to tailor their studies to specific needs.

Sterility and convenience are at the forefront of the MicroWell™ assay's design. The system utilizes the disposable lid that comes with 48-well plates, fitting securely over the coupon holder plate to prevent contamination during incubation. Additionally, the anodized aluminum plate is fully autoclavable, allowing for the reuse of the system. This feature ensures long-term reliability and promotes cost-efficiency and environmental sustainability by reducing the need for disposable components.

Designed to facilitate biofilm assays similar to the Calgary Biofilm Device using **ASTM E2799***, the MicroWell™ system offers expanded material choices, enabling more comprehensive and diverse biofilm studies. This broad range of applications makes the MicroWell™ Biofilm Plate Assay an essential tool for advancing biofilm research across multiple disciplines.

Assembled 48-Well MicroWell™

MicroWell™ in a 48- well plate

MBPA 48	MicroWell™ Biofilm Plate Assay for 48-Well Cell Culture Plate Includes 48-well biofilm plate assay, biofilm plate assay alignment plate, coupon removal tools, six (6) month limited warranty.	\$230.00
MBPA 48-3548-1	Standard 48-Well Cell Culture Plate, Sterile, Single	\$12.00
MBPA 48-3548-5	Standard 48-Well Cell Culture Plate, Sterile, Set of 5	\$55.00

BioSurface Technologies Corporation

Slide Coupon for the MBPA 48

Part Number	Slide Coupon Material	Pricing
MBPA 8025-304	Stainless Steel (304L) Slide Coupon	\$5.00
MBPA 8025-316	Stainless Steel (316L) Slide Coupon	\$5.00
MBPA 8025-AL	Aluminum Slide Coupon	\$5.00
MBPA 8025-GL	Borosilicate Glass Slide Coupon	\$5.00
MBPA 8025-PC	Polycarbonate Slide Coupon	\$3.00
MBPA 8025-PTFE	Polytetrafluoroethylene (PTFE) Slide Coupon	\$3.00
MBPA 8025-Si	Silicone Slide Coupon	\$3.00

*While similar methodologies to **ASTM E2799** can be used, BioSurface Technologies is not yet making claims as to reproducibility and ASTM methodology compliance.
